

DECLARATION OF DEMANDS:

We the People demand the full and immediate restoration of our inalienable rights and freedoms.

When in the course of human events, it becomes necessary for a multitude of people around the world to come together to stand up in defense of their inalienable rights against the oppression and abuse heaped upon them by the Fascist collusion of government, corporations and non-governmental organizations working together to strip the people of their many freedoms, a decent respect for the opinions of mankind requires that we should declare the causes which impel us to seek redress of our grievances.

It is abundantly clear that governments, corporations and organizations around the world have collectively infringed upon our inalienable rights of: Life, Liberty and the Pursuit of Happiness.

When a long train of abuses and usurpations, invariably pursuing the same goal, demonstrates a design to place We the People under absolute despotism, it is our right and it is our duty to stand up for our rights.

We have brought these issues to the attention of those who hold office as our public servants multiple times only to be confronted with skepticism and censorship of our attempts to expose the facts.

We have repeatedly demanded that they cease and desist in their attempts to extend an unwarrantable jurisdiction over us.

We have appealed to their native justice and magnanimity to disavow these usurpations, but they have been deaf to our pleas for justice.

We The People have endured more than enough abuse of our inalienable rights and freedoms under the guise of protecting our health. People, and especially children, are being injured, maimed and, yes, even killed. We cannot accept this. We are compelled to TAKE ACTION.

I. CORE PRINCIPLES:

1. The good of any nation is the sum total of the benefits enjoyed by all its people. The inalienable human rights of each individual supersede the privileges of any and all international organizations, nations, states, provinces, cities or other groups that derive their existence from We, The People of The World.
2. Governments do not have the authority to suspend human rights because of so-called "emergencies." The declaration of an "emergency" does not give anyone the right to infringe upon anyone's inalienable human rights. Regardless of the scope and/or severity of any disease outbreak or pandemic, human rights remain inalienable and may not be abridged.
3. Health care must be guided by clinical/medical practitioners (not politicians, academics or "public health" bureaucrats) and decisions must ultimately be made based on the individual's choice.
4. Discrimination based on medical status is wrong and must not be permitted in any form whatsoever.
5. Health care, including pandemic response, must be decentralized. Power and governance must flow from the bottom up, not from the top down.
6. Our focus must be on providing clean drinking water, without chemicals or additives, along with pure and uncontaminated food, and adequate nutrition to as many people as possible, including unrestricted access to all nutritional and herbal supplements.
7. We must focus on the fact that large numbers of people around the world regularly suffer and die from cardiovascular disease, cancer, diabetes, obesity and many other diseases. We must focus more of our attention and resources on solving these clear and present health problems, rather than focusing on possible future risks.

II. INALIENABLE RIGHTS:

We the People pledge to each other our Lives, our Fortunes and our sacred Honor to defend the following inalienable rights:

1. **Each individual** has the right to publicly express their own opinion regarding the effectiveness, or lack thereof, of any health related policy or treatment in spoken and/or written form. Every person's experience is a valuable scientific observation and must NOT be censored. Opinions are NOT "fake news."
2. **Each individual** must be in control of the ultimate decision to utilize any and all health-related treatments, medications, and nutrition as they deem necessary to improve and/or maintain their health.
3. **Each individual** has the right to withhold their consent and refuse treatment of any kind, at any time, regardless of whether there is a declared "emergency" or not.
4. **Each individual** individual has the right to travel free from any digital-IDs, lockdowns, quarantines, vaccine passports, mask mandates, social distancing or any other attempts to impede our freedom of assembly or movement.
5. Each individual has the right to freedom from discrimination based upon their refusal to undergo any form of medical procedure, including testing. Discrimination based on personal health choices is unacceptable in employment or education matters, when accessing public and private institutions, organizations, private businesses or other locations.
6. **Each individual** has the right to visit with family and friends, who may be suffering through an illness, in order to provide them with love and emotional support.
7. **Every parent** has the right to exert ultimate authority over the health care provided to their children.
8. **Every medical professional** has the right to practice in a manner that is directed by their experience and wisdom, free from bureaucratic dictate.
9. **Every medical professional** has the right to recommend safe, essential medications "off label" and suppliers must provide those medications to We the People of the World, as has traditionally been the case.
10. **Every government, corporation and organization** must respect and honor all of these inalienable rights despite any declaration of a state of emergency.

III. WORLDWIDE DEMANDS:

We the People demand that the following changes be enacted with immediate effect:

1. **WE DEMAND** that the use of the COVID-19 injections be immediately stopped worldwide. #StopTheShots
2. **WE DEMAND** an immediate halt to all emergency declarations, lockdowns, curfews, travel restrictions, and mandates of every kind.
3. **WE DEMAND** that the injuries and deaths caused by the COVID-19 injections and treatments such as remdesivir, midazolam, paxlovid, molnupiravir and other treatments be subjected to full and transparent investigations by a worldwide body of doctors and scientists, who are free from conflicts of interest, and the results of these investigations be reported publicly as soon as possible.
4. **WE DEMAND** that the diagnosis of disease must meet clearly predefined criteria and must be agreed upon by each individual.
5. **WE DEMAND** that the cause of death must meet clearly predefined criteria and must be agreed upon by the next of kin.
6. **WE DEMAND** that autopsies be performed whenever such procedures are requested by the next of kin.
7. **WE DEMAND** that government officials, corporations, international organizations and non-governmental organizations be held accountable for false, inaccurate and/or misleading statements, and for withholding life-saving information from the people.
8. **WE DEMAND** that all government contracts be made fully available to the public.
9. **WE DEMAND** that the governments of the world pass legislation to eliminate the conflict of interest involving government employees, international organizations, academic institutions, the pharmaceutical industry and the media.
10. **WE DEMAND** that every batch of every pharmaceutical product including drugs, testing equipment, personal protective equipment and injectables undergo rigorous testing and chemical analysis and be delivered with an independent analysis report of all ingredients and contaminants found in the product.
11. **WE DEMAND** clear evidence of causality including true isolation of any pathogen and proof of pathogenicity according to Koch's postulates.
12. **WE DEMAND** that RT-PCR testing NOT be used to diagnose "cases" of infectious disease. Whenever PCR tests are used to assist clinical work, the PCR cycle threshold and the genetic sequences used in the test MUST be included with the laboratory reports and in all data collection programs.
13. **WE DEMAND** that absolutely no restrictions be placed on access to nutritional and herbal supplements.
14. **WE DEMAND** that natural therapies including, but not limited to acupuncture, chiropractic, homeopathy, Ayurvedic medicine, Traditional Chinese Medicine (TCM), herbalism, nutrition and many other systems of health maintenance and health care, be treated on an equal footing as pharmaceutical medicines including, but not limited to inclusion in medical school training and licensing of doctors.
15. **WE DEMAND** that the World Health Organization (WHO) must stop its attempts to capture additional legal authority/sovereignty over the people of the world. The WHO is currently involved in discussions of a "Pandemic Treaty," as well as ongoing attempts to amend the International Health Regulations while they have absolutely failed to address the important DEMANDS made by We, the People of the World. The WHO must be exposed, stopped, defunded and abolished.

IV. DEMANDS THAT ARE SPECIFIC TO THE UNITED STATES CONGRESS:

1. WE DEMAND that the Congress of the United States follow the dictates of the law (50 U.S. Code § 1622) and immediately vote upon joint resolutions to instruct the President to end all 42 of the currently active “National Emergencies.”

2. WE DEMAND that Congress enact legislation providing Congress with the same authority as found in 50 U.S. Code § 1622 to vote every 90 days to end any and all Public Health Emergencies declared by the Secretary of the Department of Health and Human Services.

3. WE DEMAND that Congress repeal the 1986 National Childhood Vaccine Act and the 2005 PREP Act in order to remove the protection from liability for damages that was unconstitutionally given to “vaccine” manufacturers and health care workers.

4. WE DEMAND that Congress repeal the CARES Act and never again include financial incentives based on diagnoses of specific diseases as was provided in this Act.

5. WE DEMAND that Congress pass legislation to eliminate the Emergency Use Authorization process which has clearly been abused and turned into a profit center for pharmaceutical and medical equipment companies.

6. WE DEMAND that Congress pass legislation to put an end to all gain-of-function research.

7. WE DEMAND that Congress pass legislation to put an end to all gene therapy (or other therapy) that may result in “shedding.”

8. WE DEMAND that Congress pass legislation outlawing the advertising of pharmaceutical drugs to consumers and also restrict the financial influence that pharmaceutical companies have over medical and scientific journals.

9. WE DEMAND that Congress pass legislation to ensure complete and immediate transparency of the results in all clinical trials and all ongoing data collection.

10. WE DEMAND that Congress pass legislation to improve and expand the Vaccine Adverse Event Reporting System (VAERS) to make it far more user friendly so that it is fit for the purpose for which it was originally created.

11. WE DEMAND that Congress pass legislation to provide financing for autopsies and pathology reports to assist in accurate determinations of the true cause of death.

12. WE DEMAND that Congress pass legislation to properly fund the Countermeasures Injury Compensation Program (CICP) and restructure the guidelines to better compensate those who have suffered injuries from the COVID-19 injections and/or other authorized treatments.

13. WE DEMAND that Congress pass legislation that clearly and legally defines the following terms: “case,” “effective,” “emergency,” “pandemic,” “safe,” “vaccine.”

14. WE DEMAND that Congress pass legislation to require all levels of government, the military, corporations and organizations to offer to rehire individuals whose employment was terminated as a result of “vaccine” mandates AND pay the employees the wages that they lost due to their improper termination.

15. WE DEMAND that Congress pass legislation to reimburse all business owners who have suffered financial losses due to unconstitutionally imposed lockdowns and other forms of restraint of trade.

16. WE DEMAND that Congress pass legislation to stop the practice of user fees being paid to the FDA by pharmaceutical companies. All fees should be paid directly into the U.S. Treasury and not be allocated to the FDA budget.

17. WE DEMAND that Congress pass legislation to require at least a five-year time period during which pharmaceutical employees may NOT be hired by federal health agencies and vice versa.

18. WE DEMAND that Congress enact legislation designed to overhaul the manner in which the HHS, NIH, FDA, CDC, and NIAID allocate research funding by creating an impartial research funding agency.

19. WE DEMAND that Congress repeal the Bayh-Dole Act of 1980 (35 U.S.C. 200) in order to eliminate the conflict of interest of government employees and federal contractors earning income from patents obtained as a result of government-funded research.

20. WE DEMAND that Congress investigate countless allegations of fraud, corruption, conflict of interest, violations of rules regarding informed consent, accusations of contaminants and deficient levels of mRNA in the vials of COVID-19 injections, and many other criminal acts.

21. WE DEMAND that Congress thoroughly investigate the role that the Department of Defense (and other government agencies) have played in the development of biological weapons.

22. WE DEMAND that the Congress of the United States pass H.R. 419 to Defund the World Health Organization and also pass H.R. 7806 to remove the United States from both the United Nations and the World Health Organization.

This page is reserved for additional demands received after the initial publication.
